# ***CLIN 0023***

## ***Basics***

- ❑ The ELINS under CLIN 0023 will be renumbered. They will be broken into categories of types of items and numerically numbered. Numbering will be in the 1000 – 9000 range.
- ❑ Catalog of COTS software and hardware peripherals associated with data, voice, and video seats
- ❑ Supports requirements beyond basic services for specialized tasks
- ❑ All upgrades include maintenance, initial training, and access to help desk
- ❑ Timing is everything! Upgrades to services are less expensive if ordered at the time of task order award

# ***Ordering CLIN 0023 Services Via Enterprise Order***

- ☐ Requirements for CLIN 0023 services known prior to the issuance of the Enterprise Order and within the Enterprise Order Budget should be procured as part of the Enterprise Order.
- ☐ Requirements for services in excess of the Enterprise Order Budget should be forwarded to the CTR with funding and will be handled on the Enterprise Order.
- ☐ Enhancements to Enterprise Order Services or Additional Services/Seats ordered after award of the Enterprise Order that are in excess of the Enterprise Order Budget are funded with local money and are handled as modifications to the Enterprise Order

# *Ordering CLIN 0023 Services Via Local Order*

- ☐ Local Orders support temporary requirements for additional or enhanced services.
- ☐ Examples of Services that would typically be procured through a Local Order include Standalone Workstations, Network Printers, Palm Pilots, Fax Machines, etc...
- ☐ Services that are initially ordered on a Local Order and exceed 12 months will be absorbed in the Enterprise Order along with supporting funds.
- ☐ Requirements for CLIN 0023 services that arise after award of the Enterprise Order, and that are not enhancements to Enterprise Order Services, are ordered via Local Order
